## Swimmers complete season

The Falling River Country Club swim team last week completed its first season in the Lynchburg Aquatic League.

The team, in its fourth year of existence, consists of 34 members coached by Genaro Otero, a native of South America who was on the VPI swim team while a student there.

Season highlights this year include a new club record in the 50-meter butterfly stroke by Kim Romanac, and three swimmers, Mark Lawson, Michael Hayes and Shannon Williams, qualifying in the "A meet" of the district championship. Hayes placed second in the 25-meter breast stroke, and Lawson placed seventh in the 25-meter backstroke.

In the "B meet" of the league championship, all the swimmers placed well, according to Otero.

Members of this year's team at Falling River Country Club include Laura Bradley, Mary Burger, Teresa Burger, Ronald Coleman, David Fedison, Jim Fedison, Johnny Fedison, Liza Gray, Terri Hamlett, Kelly Hamlett, Gina Hamlett, Susan House, Michael Hayes, Hannah Jones, Anne Leigh Kerr, Amy Kerr, Mark Lawson, Wade Mays, Rhonda Moore, Martha Nolen, Thomas Nolen, Chris Phelps, Jennifer Phelps, Katie Powell, Eric Powell, Kim Romanac, April Watson, Betsy Wilbun, David Wilbun, Matt Wilbun, Laura Williams, Roxanne Williams, Jeff Williams, Shannon Williams, and Genera Otero, coach.

# Ceramic tile is easily cleaned

By SHIRLEY W. WALTON
Extension Agent

Good News For Homemakers

The ceramic tile in your bath or shower area, like its cousins porcelain, enamel or fine china, can be a snap to keep bright and shiny clean. The secret lies in knowing just what the dirt-causing culprits are and how to attack them.

Tile is really subject to three distinctive different types of soil and unfortunately none respond particularly well to conventional scouring powders.

The first, and perhaps the most common, soil you have to deal with is the brownish stain that builds up along grout lines and in corners of bathtubs and showers. This really is not dirt at all, but mildew which thrives in the dampness. Scouring is a best only a temporary solution since this microscopic plant will grow right back. Instead, spray a household disinfectant on the dry tile and let it set overnight. In the morning you can whisk the soil away with a dry sponge. A light brushing will finish off any stains that remain. Remember that an old toothbrush is great for brushing in corners and other close places.

The second kind of soil is the rough white build-up on the tile and glass shower doors. This is actually hard water salts left behind when water evaporates, similar to what happens on the inside of a tea kettle.

A commercial tile cleaner will dissolve this soil, making it easy to wipe clean.

Last, but certainly not least, is the dark varnish-like coating that sometimes builds up in the center of commercial tile cleaners won't touch it, but heavy-duty liquid laundry detergent works like magic. This is how you do it, apply in full strength to the dirty area and let it stay for an hour or two, then sponge off with plenty of water. For really tough cases, the detergent may be left on overnight and the area scrubbed with a brush.

Now, that's all there is to keeping ceramic tile bright and sparkling clean. You will also be interested in knowing that the last example given of using the heavy-duty liquid laundry detergent works like magic in the fiberglass tubs and shower stalls.

Now it's up to you. Happy cleaning!
